Demonstration of Proposed Features

Template: Demonstration of Proposed Features & Verification	**Maximum Marks: 1 Mark**
Date: 15 March 2026	**Team ID:** FV-AI-2026-X1
Project Name: FoodVerse AI	**Track:** AI/ML & Generative AI

Live Feature Demonstration Matrix:

Verification of all proposed features demonstrated live in production at https://foodverse-ai-six.vercel.app/.

S. No	Feature Demonstrated	Input Data / User Action	Expected Computational Output	Actual Demonstrated Result	Status
1	Food Scanner	Upload Pepperoni Pizza photo	Detect pizza crust, cheese, pepperoni; compute ~640 kcal, 28g protein	Accurately identified dish; returned 640 kcal, score 45, allergens	PASS
2	Fresh Produce Scan	Canvas 'Fresh Apple' green image	Compute high color uniformity, low roughness; score > 85	Freshness Score: 95/100, status 'Fresh', 21 days shelf-life	PASS
3	Spoilage Detector	Canvas 'Decayed Banana' brown image	Detect brown discoloration mask; score < 30	Freshness Score: 15/100, status 'Spoiled', safety warning issued	PASS
4	Hygiene Auditor	Commercial kitchen workstation video	Inspect PPE, gloves, counters; assign compliance grade	Grade A assigned; 3 compliance indicators verified	PASS
5	Chef Assistant	Pantry items: 'Paneer, Butter, Tomatoes'	Generate step-by-step Paneer Butter Masala recipe	Generated 4 detailed steps, chef pro-tips, and prep times	PASS
6	Hands-Free Q&A;	Query: 'How do I stop onions from burning?'	Direct culinary tip, heat control advice, safety note	Immediate response: lower flame to medium, add 1 tbsp water	PASS
7	Metabolic Planner	Female, 55kg, goal 'weight loss', diet 'vegan'	Calibrate target ~1200 kcal; 100% plant-based meal plan	Generated 1200 kcal plan with zero animal or dairy products	PASS
